

1.

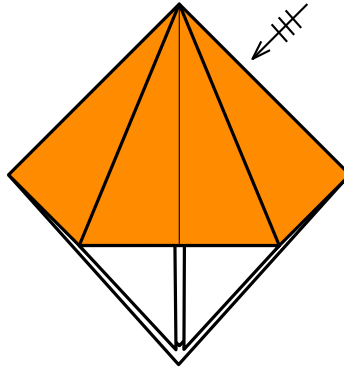

2.

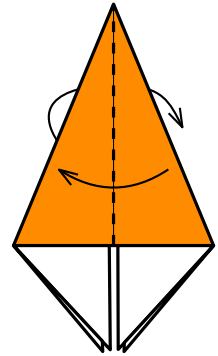

3.

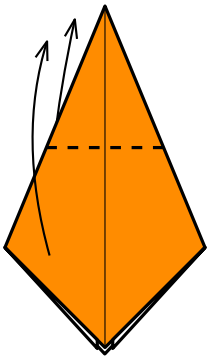

4. Squash fold one of the side corners.

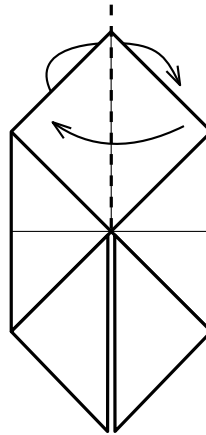

5. Repeat on the other three side corners.

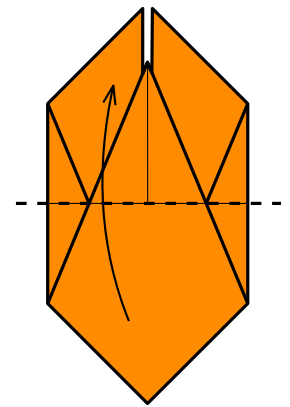

6. Flip over one of the layers (front and back).

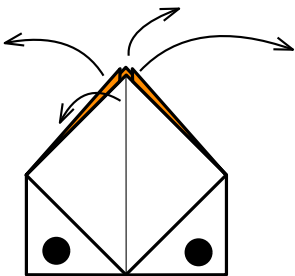

7. Lift the front layer and fold right at the spot at which the flaps underneath squash into triangles that meet the side edges. Repeat on the back.

8. Flip over one of the layers (front and back).

9. Fold the front bottom layer until it meets the top corners. Repeat in the back.

10. Grab two opposite dots (there are four of them) and gently pull out so that the top edges open a little bit outward. As the do, the inner "bulb" will start to take 3D shape. Grab the other two opposite dots and do the same. Repeat until the flower takes shape.
